ISTQB Certified Tester Foundation Level; Certified Tester, AT*SQA DevOps Testing

SKILLS

- Test automation: Playwright, Selenium WebDriver
- Programming languages: TypeScript, JavaScript, Java
- CI/CD: Azure Pipelines, GitHub Actions
- Manual testing: UI, API (Postman/Bruno)
- Other tools: Git, Jira, IntelliJ IDEA, VS Code, GitHub Copilot, Azure DevOps

PROFESSIONAL EXPERIENCE

Datacom

April 2025 – Present

Senior Quality Assurance Automation Engineer

5F Uptown Tower 1, Uptown Bonifacio, Taguig City, Philippines

- Develop and execute UI automation scripts using Playwright with TypeScript (Cucumber BDD)
- Leveraged GitHub Copilot to accelerate development of Playwright automation scripts and improve code quality
- Commit and push code changes using VS Code's built-in Git integration and GitHub Source Control
- Perform manual front-end testing for new features and releases
- Document test results and defects using Jira
- Review pull requests and provide feedback to other Test Automation Engineers

Planit

September 2024 – March 2025

Test Automation Engineer

Curve Building 32nd Street, corner 3rd Ave, Taguig City, Philippines

- Perform manual API testing using Postman
- Develop and execute integrated API and UI automation scripts using Playwright with TypeScript (Screenplay Pattern)
- Commit and push changes through VS Code's built-in Git integration
- Review and provide feedback on pull requests from other Test Automation Engineers
- Log defects and maintain test reporting using Jira
- Developed a utility to automate the deletion of 4,100 test data via UI (as the delete API is not available to us), reducing effort from 18 days (manual deletion) to 5 days (this includes both scripting and execution)

DXC Technology

March 2022 – September 2024

Senior Analyst I Software Engineering || Test Automation Engineer

Intellectual Property Center Building, Upper McKinley Rd, Taguig City, Philippines

July 2024 – September 2024

- Develop and execute UI automated tests using Playwright with TypeScript

Senior Analyst II Software Engineering || Test Automation Engineer

November 2023 – June 2024

- Set up the test automation framework and developed end-to-end UI tests using Playwright with TypeScript
- Migrated the entire UI test suite from Selenium WebDriver to Playwright, reducing pipeline execution time from 19-24 hours to just 4 hours for 300+ tests
- Configured and maintained automation agents on virtual machines for test execution
- Integrated the automation framework with Azure DevOps Pipelines and enabled visual reporting of test results
- Conducted brown-bag knowledge-sharing sessions on automation testing best practices
- Maintained automated test scripts using Selenium WebDriver with Java and Cucumber (BDD)

Technology Consultant II || Test Automation Engineer

March 2022 – October 2023

- Developed and maintained automated test scripts using Selenium WebDriver with Java and Cucumber (BDD) in IntelliJ IDEA across multiple desktop browsers (Chrome, Firefox, Edge)
- Used Git Bash to commit and push code changes to Azure DevOps repositories
- Scheduled and executed automated test runs via Azure DevOps Pipelines on a weekly basis and after each QA release
- Investigated test failures on both local and virtual environments, analyzed logs, and reported defects
- Generated and sent pipeline execution reports summarizing failed scenarios, root causes, and fixes
- Conducted brown-bag sessions and training workshops on manual and automation testing

Data Analytics Ventures, Inc.**April 2021 – February 2022****Quality Assurance Officer***30/F Cyberspace Gamma, Topaz & Ruby Roads, Ortigas Center, Pasig City, Philippines*

- Main QA for Go Rewards site and CMS (www.gorewards.com.ph), Go Rewards PH App [Main app, Fly, Pay] (Android and iOS), DAVI site (www.davi.com.ph), and DAVI Finance Portal (internal site)
- Provide expertise in planning, constructing, and execution of test scripts
- Create and execute automation script for desktop browser using Selenium WebDriver / IDE
- Use Azure DevOps for Test Scripts, Tasks, and Bugs

Accenture**November 2018 - March 2021****Test Engineering Associate | | Software Engineering Associate***Robinsons Cybergate Tower 3, Mandaluyong City, Philippines*

- Develop, debug, and execute Automation Anywhere Test Scripts
- Create and execute automation script for desktop browser using Selenium WebDriver
- Provide expertise in planning, constructing, and execution of test scripts
- Dev/Test PWD (Accessibility tools)

Accenture**February 2017 – August 2017****Intern***Robinsons Cybergate Tower 3, Mandaluyong City, Philippines*

- Tertiary Page Dev and Test
- Metadata Verification

CERTIFICATION**ISTQB Certified Tester Foundation Level (CTFL)****April 2024****ASTQB - ISTQB in the U.S.**Credential ID: [24-CTFL-01347-USA](#)[Official U.S. List of Certified & Credentialed Software Testers™ Profile](#)**Certified Tester, AT*SQA DevOps Testing****January 2023 – January 2026****ASTQB - ISTQB in the U.S.**Credential ID: [23-AT*DevOps-00002-USA](#)**Accenture Agile Certification Program****June 2020****Agile Professional Certified**Certificate Number: [CNAG0000009961](#)**Automation Anywhere Certified Advanced RPA Professional****July 2020 – July 2022****Robotic Process Automation Professional (V11.0)**Certificate Number: [AAADV-21147163](#)

EDUCATION**Tertiary:****Asia Pacific College****June 2013 – April 2018****BS Electronics Engineering***#3 Humabon Place, Magallanes, Makati City, Philippines*

- Best Exhibit, Engineering Symposium and Exhibit, April 2018
- Dean's List Awardee, June 2015
- Dean's List Awardee, June 2014

College scholarship: SM Foundation, Inc.*SM Corporate Offices Building B, J.W. Diokno Blvd, Pasay City, Philippines*Institute of Electrical and Electronics Engineers (IEEE) profile: <https://ieeexplore.ieee.org/author/37086553247>**Secondary:****Makati Science High School****June 2009 – March 2013***9 Kalayaan Ave, Makati City, Philippines*
